Press Release

On March 21, 2014 the Lake County Sheriff's Office Detective Bureau, along with the Geauga County Sheriff's Office Detective Bureau, and the U.S. Marshal Northern Ohio Violent Fugitive Task Force conducted a joint investigation into William Bajzel, who was wanted on numerous warrants.

William Bajzel was subsequently located at America's Best Value in Mentor where he was taken into custody and booked into the Lake County Jail. During the course of the investigation two juvenile males were also found to be present and in possession of \$3404.00 in cash, approximately 15 grams of heroin, as well as other drug paraphernalia.

As a result of the investigation and interviews conducted with both juvenile males they were booked into the Lake County Juvenile Detention Facility for drug trafficking and possession of criminal tools. Other charges may follow.

The above investigation conducted by these agencies is an example of work that is being done on the war on drugs that plagues our communities.
